

## D6075BA

### 250W Professional Active Subwoofer

#### Description

The D6075A 250W professional active subwoofer stands out as a premier choice for venues seeking powerful, accurate bass. Its 10-inch woofer and advanced construction deliver high-quality low frequencies, making it an exquisite piece of equipment for any venue looking to elevate their sound to the next level.

#### Features

- Rated power 250W Active subwoofer
- 10-inch long-stroke woofer, high sound pressure level;
- The box body is made of advanced imported splint to effectively prevent resonance;
- The low frequency speed is high, with rich flexibility and strength, suitable for high-end KTV, nightclubs, bars and other entertainment venues to supplement the low frequency.
