

D412A

12" 300W Active Subwoofer with Built-in Amplifier

Description

D412A is an active high-power 12" high-performance and high-efficiency ultra-low frequency speaker. Its surface is coated with environmentally friendly water-based paint. Structurally, it features a high-power, long-stroke drive unit and a box with a direct structural design, delivering powerful low-frequency sound pressure. Complemented by a line array column speaker, it offers remarkable performance. The unique design includes an flight case (or customized packaging) for convenient transportation and installation.

Optionally, it can be equipped with a built-in dual-channel digital power amplifier module with DSP, which widely used in conference halls, auditoriums, multifunction halls, banquet halls, entertainment bars, song and dance halls, as well as large, medium, and small-scale mobile performances.

Features

- Rated power 300W
- Peak power capacity 1200W
- Nominal impedance 8ohm
- Frequency Range 40Hz-250Hz
- Sensitivity(1W/1M) 96dB
- Max. SPL 126.8dB
- 2*600W Built-in Class-D amplifier with DSP

Specifications

Model	D412A
Components	1"x12"-2.5" Voice Coil
Rated Power	300W
Peak Power Capacity	1200W

Nominal Impedance	8 ohm
Frequency Range	40Hz-250Hz
Sensitivity(1W/1M)	96dB
Max.SPL	126.8dB
Built-in Amplifier	2x600W
Dimensions (HxWxD)	460x400x500mm
Net Weight	24kg
