

D5826LC

UHF Wireless Microphone System Dedicated Charging Box

Note:

The image is for illustrative purposes of the charging box's usage and does not include the handheld microphone and waist-mounted transmitter.

Description

The D5826LC UHF Wireless Microphone System Dedicated Charging Box is designed for simultaneous charging of up to four transmitters, supporting both fast and slow charging modes for convenience. It also features two cradles for handheld microphones and waist-mounted transmitter, along with two USB-A ports for charging additional devices like mobile phones and power banks. This charging box is an ideal accessory for wireless microphone systems, providing a streamlined charging solution.

Features

- Powered by DV24V adapter;
- Can charge up to 4 transmitters simultaneously;
- Complies with the charging QC3.0 protocol; supports fast and slow charging;
- Fast charge output voltage: 9V, current: around 2A;
- Slow charge output voltage: 5V, current: around 1A;
- A 3000mAH lithium-ion battery can be fully charged in less than 3.5 hours under fast charging;
- Comes with 2 cradles for charging handheld microphones and waist-mounted transmitters;
- Features 2 USB-A ports for convenient charging of mobile phones and power banks;

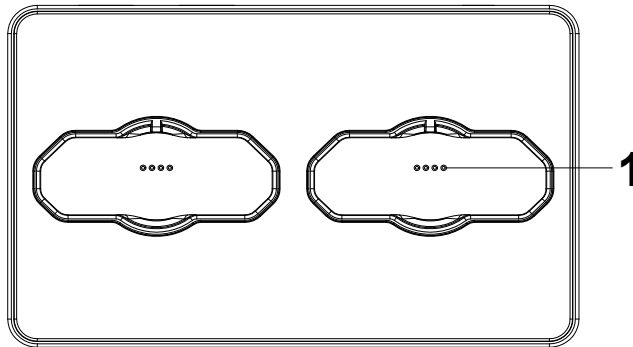

- Wide input voltage range: AC100V-240V/50-60Hz;
- Static power consumption is less than 0.4W.

Specifications

Model	D5826LC
Power	80W
Input Power	AC220V/50Hz
Package Size (L×W×H mm)	350* 230× 95MM
Product Size (L×W×H mm)	161* 101× 40MM
Gross Weight	1kg
Net Weight	0.65kg

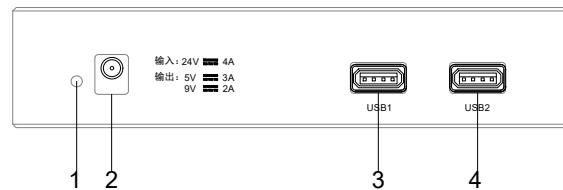

Front / Rear Panel

Front Panel

1. Charging Contact

Side Panel

1. Power Indicator Light
2. Power Interface
3. USB 1 Charging Interface
4. USB 2 Charging Interface
