

DSP6240

240W Professional Conference Speaker

Description

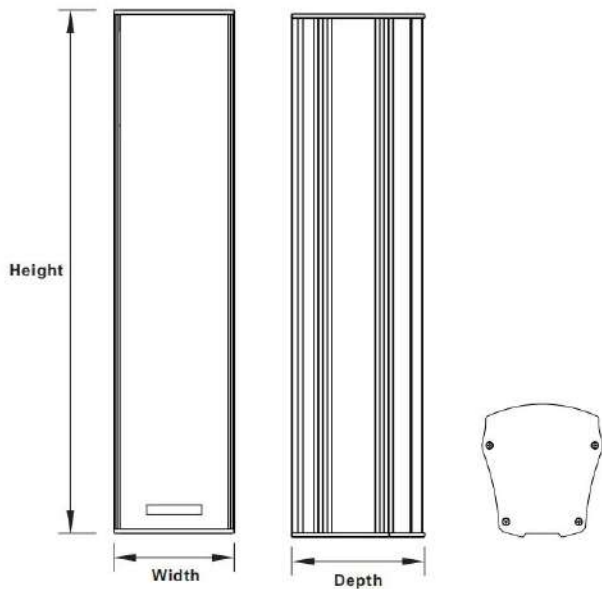

DSP6240 is a 240W Constant Resistance Professional Conference Speaker that is made of aluminum alloy housing, with extremely textured appearance, which can provide professional-level sound performance and meet the needs of demanding venues.

Features

- Rated power: 240W
- Freq. Response: 95Hz-18kHz
- Sensitivity (1m,1W): 93±2dB
- Max SPL (1m): 117±2dB
- Streamlined design, simple and beautiful shape, suitable for decoration in various places.
- Adopts a combination of 4.5" fiberglass drum woofer and 1" neodymium tweeter, with wide frequency response, clear bass and bright treble.
- Equipped with a multifunctional mounting bracket for easy installation.
- Durable aluminum alloy housing and aluminum mesh, not easy to deform and rust.

Model	DSP6240
Speaker Unit	4.5"×8, 1"×1
Rated Impedance	4Ω
Rated Power(RMS)	240W
Freq. Resp. Range	95Hz-18kHz
Sensitivity(1m,1W)	93±2dB
Max.SPL(1m)	117±2dB
Product Size (H×W×D)	1100×140×155mm
Package Size (2PCS/CTN)	1207×420×225mm
Net Weight (1PC)	14.1kg
Gross Weight (2PCS/CTN)	31.5kg
