

D6706

IR Conference Battery Charging Box

Description

Can accommodate d6701 series receivers; Universal mains power facility allows use worldwide; Rapid recharging: within 8-10 hours.

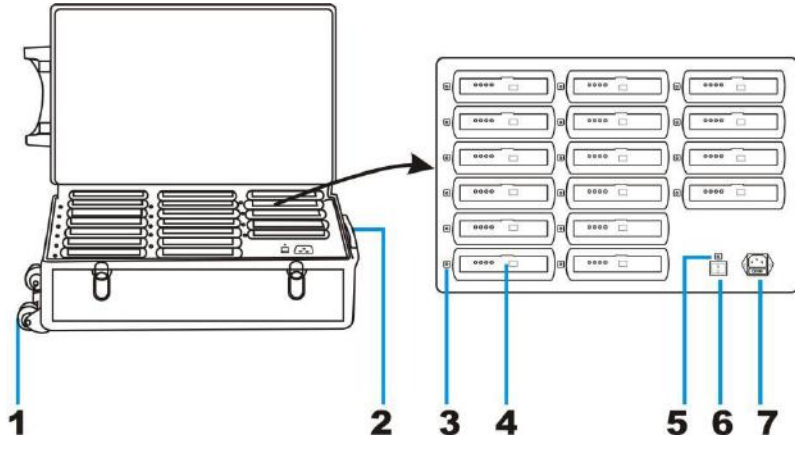

Features

- Adopt AC110V~220V switching power supply.
- Can charge 16 lithium-polymer batteries at the same time.
- With intelligent charging management circuit, it can effectively protect the battery.
- With telescoping handle and pulley for easy movement.

Specifications

Model	D6706
Power Supply	110V-220V~50Hz/60Hz
Power	200W
Number of Charging Positions	16
Maximum Charging Current Per Unit	700mA
Charging Time	About 8-10 hours
Status Indicator	Flashing red - Charging; Green - Full
Working Temperature	0°C-40°C
Dimensions	620×370×260mm
Weight	10.74kg (without battery)

Front / Rear Panel

- 1. Pulley
- 2. Telescoping Handle
- 3. Charging Status Indicator
- 4. Battery Holder
- 5. Power Indicator
- 6. Power Switch
- 7. Power Socket (AC110V-220V~50Hz/60Hz)
